

# Bay Education Trust - Development Plan Summary

*Better Educational Standards Together*

Clarity of purpose	Leading a culture of improvement	Approach to Pedagogy
<p>BET has a clear and compelling vision for the quality of education it expects to deliver in all of its schools.</p> <p><i>There is an establish and clearly articulated strategy for school and BET improvement in place, which is understood by all Leaders, Teachers and Directors.</i></p>	<p>Aspirations and expectations for all pupils are universally ambitious in all schools and this is systematically reinforced by BET leaders.</p> <p><i>Proven school improvement systems and practices from within the Trust are used to significantly improve the pace of improvement.</i></p>	<p>The BET approach to teaching and learning is underpinned by core principles informed by a wide evidence base of proven practice.</p> <p><i>Middle leaders have the capacity and knowledge to drive improvement within English and Maths (+ All Subjects). They have clear action plans leading to significantly improved outcomes.</i></p>
Leadership of teaching	Evidence based professional learning models	Intentional use of assessment
<p>Leadership of teaching and learning is prioritised as the most important improvement activity in schools.</p> <p><i>Teaching and Learning is at least good across the whole school. Lessons are challenging and pupils are motivated to learn.</i></p>	<p>BET leaders create and sustain a “culture of purposeful learning” across EVERY schools.</p> <p><i>BET leaders foster a culture of learning in which staff can develop their practice. Infrastructure and networks are in place which support shared professional learning and development.</i></p>	<p>A clear policy is being followed on the regularity and consistency of assessment; this is reinforced by shared training, peer review and moderation.</p> <p><i>Teachers are using assessment to inform planning so tasks are better matched to pupils’ abilities and present clear challenge.</i></p>
